

# ROSSITTIS – Die Natursteinmarke®

*Hartgestein*

### Kernkompetenz Hartgesteine

Während handelstechnisch ausschließlich magmatische Tiefengesteine mit den Mineralien Feldspat, Quarz und Glimmer als Granit bezeichnet werden dürfen, werden im Volksmund auch eine Vielzahl anderer Hartgesteine unter diesem Oberbegriff gehandelt.

Mit seiner weltweiten Logistikkette und den einzigartigen Vorlagerstätten fungiert ROSSITTIS als verlängerter Arm zahlreicher Steinbruchbesitzer, insbesondere aus China, Indien, Afrika, Brasilien, Italien und Spanien. Die positiven Eigenschaften wie Hitzeempfindlichkeit, Härte und Pflegeleichtigkeit haben weltweit Hartgesteine zum Trendmaterial für Arbeitsplatten, Fußböden und Wandverkleidungen gekürt.
